Experience

Software Engineer, Wells Fargo – Hyderabad, India

August 2024 – Present

- Modernized the Commercial Cards and ACH domain into scalable, containerized **Java 17** and **Spring Boot** microservices. Automated legacy code refactoring and engineered custom **GitHub Copilot** sub-agents to generate comprehensive UI test case workflows, ensuring production resiliency and accelerating delivery time by 40%.
- Led end-to-end production deployments during releases, coordinating cross-functional rollouts across database and infrastructure teams, ensuring code security via Checkmarx SAST and SonarQube during zero-downtime releases on **OpenShift**.
- Architected low-latency event streaming solutions utilizing **Apache Kafka** and **IBM MQ** to decouple legacy mainframes, guaranteeing 100% eventual consistency for high-volume data.
- Replaced manual system updates with automated pipelines, deployed as **Kubernetes** batch jobs and triggered via **Autosys**, achieving a 99.9% success rate through fault-tolerant retry mechanisms.

Intern Analyst, Wells Fargo – Hyderabad, India

May 2023 – July 2023

- Engineered a Long Short-Term Memory (**LSTM**) neural network in **Python** to automate customer liquidity forecasting across millions of records, delivering 95% predictive accuracy and decreasing manual ETL processing efforts by 40%.

Skills

Achievements: LeetCode Rating 2162 (Top 1%), CodeChef 1711, Codeforces Specialist

Languages: Java, Python, C++, Kotlin, JavaScript, SQL, Bash

Backend & Frameworks: Spring Boot 3, Spring Batch 5, React.js, Next.js, Node.js

Cloud, DevOps & Databases: Kubernetes, OpenShift, Docker, GCP (Cloud Run, Vertex AI), AWS (SageMaker), Apache Kafka, IBM MQ, PostgreSQL, Oracle SQL, MongoDB, GitHub Actions, Jenkins, Harness, Autosys

AI & LLM Orchestration: Large Language Models (LLMs), Prompt Engineering, Agentic Workflows, Google Agent Development Kit, Model Context Protocol (MCP), RAG, LangChain, PyTorch

Concepts: Microservices, Concurrency, Distributed Systems, Data Structures & Algorithms, DevSecOps

Education

National Institute of Technology (NIT), Durgapur

Graduated: 2024

- B.Tech in Computer Science and Engineering – CGPA: 8.65

Certifications

Generative AI with Large Language Models – DeepLearning.AI and Amazon Web Services

2026

- Credential:** coursera.org/verify/XIHPU6NPQ9AR

Model Context Protocol (MCP): Advanced Topics – Anthropic Education

2026

- Credential:** verify.skilljar.com/c/5vy3s37ym775

Projects

Autonomous VS Code Developer Agents

- Built a custom **VS Code** multi-agent development environment orchestrating 4 specialized LLM sub-agents (Analyst, Architect, Coder, Detective) via markdown-based handoffs to autonomously translate **Jira** user stories into implementation blueprints, generate code, and audit deliverables against requirements.

Stock Analyst AI Microservice

github.com/kaushal168/market-sentiment-llm

- Engineered a zero-to-n auto-scaling REST API on **Google Cloud Run** for real-time market sentiment analysis, utilizing **Google Agent Development Kit (ADK)** to transform unstructured news headlines into strictly validated **Pydantic** JSON schemas containing actionable trading signals, polarity metrics, confidence scores and contextual rationale.

AI Job Search Automation Pipeline

github.com/kaushal168/job-hunter-ai

- Automated the daily ingestion of job postings by building a serverless **Python** pipeline, leveraging **LLMs** to autonomously filter and evaluate ideal opportunities.

- Developed a headless document generation engine using **Tectonic** and **GitHub Actions** to dynamically compile LaTeX resumes tailored by LLMs into ATS-optimized PDFs, automating delivery via secure **SMTP**.

Real-Time Obstacle Detection App for the Visually Impaired github.com/kaushal168/Obstacle-Detection

- Built an affordable real-time assistive application using **Kotlin** and **Google ARCore** to process complex spatial data, implementing low-latency voice feedback loops for near-instantaneous obstacle warnings during active navigation.

Leadership & Extracurriculars

President @ Literary Circle, NIT Durgapur *May 2023 – April 2024*

- Spearheaded TEDx and the university’s largest literary festival, leading a cross-functional team of 50+ members.

Vice President @ QuizInc, NIT Durgapur *May 2023 – April 2024*

- Directed content strategy and logistics for 10+ competitive events.
